

Technical Report Writing

DESCRIPTION

The major focus of this technical writing course is the technical report. The early, short assignment involving instructions or descriptions and the like give you practice using headings, lists, notices, and graphics; in handling numbers and abbreviations; and of course in producing good, clear, well-organized writing

OBJECTIVES

- Review sample technical writings, correct errors and establish critical standards for technical writing
- Use various techniques for communicating technical information to non-technical readers
- Edit preliminary drafts of technical documents for clarity, economy, and emphasis
- Use appropriate graphic devices to enhance report readability and facilitate easy access and retrieval of information
- Evaluate and test readability
- Evaluate organization, paragraph structure, and critical format elements of technical reports to enhance easy use and retrieval of information
